ventilation; other engineering systems

APPROVAL CONTROL CALCULATION

DESIGNING

(for each room before the result)
stylistic solutions; planning solutions;
redevelopment; commercial on request:
(ventilation, window replacement, heating replacement,
other engineering systems)

WORKING DOCUMENTATION

we combine drawings of engineering departments;
we enter data into the list of materials;
we transfer the data for approval to the
management company, we negotiate

VISUALIZATION

(creation of original pieces of furniture)
we always draw your attention to the fact that the 3D
result is also a Technical Task, therefore it will
continue to change with new design data;
(at the implementation stage)

EQUIPMENT

create a local folder, where we collect all
(commercial offers and technical data sheets);
we always calculate one position from several suppliers;
we divide purchases into stages

COPYRIGHT CONTROL

planning of repair work, tracking the schedule of the work crew;
verification of compliance of the construction works performed according to all drawings of the Working project;
making adjustments and clarifications to the working drawings, if necessary;
making clarifications on the design project to the foreman of the construction team;

IMPLEMENTATION

open scheme of work with the client;
coordination of contractors from related fields;
working with the project budget, providing the most favorable conditions;
